

Verónica De León Hernández

Product Designer with 7+ years of experience designing data-informed digital products. Curious about the intersection of design, code and AI, I enjoy building small experiments exploring data, maps, science and interactive experiences.

Experience

Skoove - Freelance Product Designer

2026

esigned a pricing experience focused on conversion for a digital piano learning platform.

- Transformed a Help Center article into a structured pricing decision flow for non-subscribed users.
- Improved information architecture and content hierarchy for plan comparison and decision-making.
- Collaborated with marketing stakeholders to align business goals with user needs.
- Extended the design system with reusable pricing components for consistency and scalability.

Mondly - Growth & Senior Product Designer

2023 - 2024

Designed growth and monetization experiences for a language-learning app with 100M+ downloads.

- Redesigned the Offer Page, increasing time on page and reducing bounce rate.
- Introduced light-theme store visuals, driving ~3% download growth and meeting Q1 OKRs.
- Designed monetization flows and seasonal campaigns to support Premium subscriptions.
- Built scalable seasonal campaign templates, increasing ‘Activate’ taps by 7% and conversion by ~2%.
- Extended and documented the design system during the rebrand, improving consistency and cross-team adoption.

EyeEm - Product Designer

2021 - 2023

Led B2C product design at a marketplace connecting 20M+ creators with buyers and brands.

- Redesigned the Cart & Checkout flow to reduce friction and simplify purchasing.
- Simplified complex ecommerce journeys through UX exploration and iterative design.
- Designed reusable ecommerce patterns to improve consistency across purchasing flows.
- Collaborated with product and engineering to translate business needs into user-centered solutions.

BaseCase - UX/UI & Marketing Designer

2017 - 2020

Designed interactive product experiences for a life sciences data visualization SaaS platform.

- Designed and implemented interactive demo apps showcasing complex product workflows.
- Translated complex scientific workflows into intuitive digital experiences and documentation.
- Collaborated with developers and copywriters to deliver client-facing product experiences.
- Owned the end-to-end design process, from concept and wireframes to implementation and testing.
